

Access Platform with Extra Raised Height

“Action Handling is our No.1 choice for Access Platforms”

All our platforms are designed to comply with Health & Safety standard regulations

A Major High Street Retailer approached Action Handling and requested the design for a bespoke Access Platform. The requirement was to overcome the challenge of changing light bulbs on the shop floor with a fork lift truck that had a low lift height.

A customised fabrication was supplied to meet the customer’s exact specification and is compliant to HSE note PM28 and 86/663/EEC.

Custom requirements:

- Platform from chequer plate self-draining with floor sided kick-plate to prevent tools, goods, etc. from falling.
- Fork heel locking pins for safe attachment to truck along with mesh protection.
- Single side gate entry and access ladder. EPC finish.

Specification:

- Size LxWxH: 950x950x2930mm.
- Platform height: 900mm.
- Fork size: 150 x 50mm.
- Fork spread: 690mm max.
- Capacity: 250Kg at 500mm load centre.
- Centre of gravity: 525mm.
