

Fully Electrical, Rough Terrain Pallet Truck

“Action Handling are our No.1 choice for Handling Equipment”

All our Trucks & Trolleys are designed to comply with Health & Safety standard regulations

Working with a major Building Contractor on a project at the London Olympics site, Action Handling were invited to discuss a requirement for transporting pallets of heavy goods across uneven terrain.

A meeting was arranged with an Action Handling Director and the Site Manager to discuss the quantity, size, weight and frequency of goods transported across site on an average working day. Onsite personnel were also consulted to understand their thoughts on ease-of-use and safety regulations. After much consideration, a solution was compiled whereby 2 bespoke Pallet Truck units were supplied.

- Electric travel (forward and reverse) and electric lift.
- Easy to use over rough terrain found on building sites, farms, garden centres etc.
- Electrics, batteries protected in metal casings, cables in tubes to avoid possible damage.
- Supplied with batteries and charger, overnight charge for a full days work. Easy maintenance.
- Security brake complying to EC standards
- Key operated for security and safety.
- Contamination free of noise or fumes.
- Minimum operators effort required, easy to use and time saving.

Specification;

Load capacity 1200Kg. Fork elevation 200mm. Fork length 890mm. Max pallet width 1200mm. O/A width 1640mm. O/A length 1430mm.
