

WEIGHT REACTIVE STEPS

Constructed from tubular steel, these steps are sturdy with handrails for support. Anti-slip treads for secure grip and kick-board for extra safety. Four spring loaded castors engage when weight is applied and lower the steps into a motionless state. When weight is removed the steps become mobile again.

- Platform size: 400 x 550mm.
- Wide treads W x D: 550 x 200mm.
- Max load capacity: 150kg.

REF	No of treads	Platform height mm	Overall size H x W x D mm	PRICE
AAW83	3	720	1575 x 600 x 735	£396.20
AAW84	4	930	1755 x 600 x 870	£458.76
AAW85	5	1160	2030 x 600 x 990	£519.28

SPRING LOADED STEPS

Sturdy mobile steps with handrail. When weight is applied onto the steps the castors disengage, making them stable and ready to use. The castors will engage once the weight is removed, making the steps easy to pull.

- Available in grey or blue.
- Platform size: 400 x 550mm, with non-slip punched surface.
- Wide treads with non-slip punched surface: 200 x 550mm.
- Max load capacity: 150kg.
