KAP05

## HEAVY DUTY MOBILE ACCESS PLATFORM

This is a heavy duty platform that is suitable for maintenance access, industrial tasks and warehouse work where a large platform area is required. Side platform access allows greater operator flexibility and safety. The design allows for easy manoeuvrability around site.

- 500kg SWL.
- Strengthened treads.
- Strengthened back axle.
- Platform heights up to 2000mm.
- Fully welded, heavy duty construction.

- Large platform: 700mm x 1600mm.
- Tread size: 700mm x 200mm.
- Brightly coloured braking system to indicate safety.
- Durable powder coated finish in a choice of blue, green, red, yellow or custom colours.
- 2 and 3 tread models come with a side handle braking system. 4 tread models and up come with central or side braking system.
- Optional extras include: walk through sides with chainguard, platform entrance gate, chain or lifting bar, handrail to all 3 sides of platform.

| REF   | No of treads | Platform height mm | Working height mm | Overall dimensions H x W x L mm | PRICE    |
