

WORK PLATFORMS

Constructed from square steel tube with non-slip chequer plate surfaces. There are four heights available: 250, 500, 750 and 1000mm. The modular design allows for the platforms to be used singularly or placed side by side to create a larger working space.

- Platform size: 800 x 800mm.
- Handrail height: 1000mm above platform.
- Feet are adjustable for use on uneven flooring.
- Load capacity: 150kg.
