FOLDING TELESCOPIC LARGE PLATFORM STEPS

Folding steps with telescopic legs which allow use on stairs and give stabilisation when working at height. Fitted with all-round 1000mm guardrails to support operator safety. Constructed from aluminium to create a light, easy to manoeuvre on two castors, versatile set of steps. They can be adapted for use on flat or uneven surfaces such as stairs.

- Large platform: 600 x 610mm.
- Simple height adjustment.
- Tool storage tray.
- No of treads: 7 + 3.
- Unextended platform height: 1760mm.
- Max unextended platform height: 3700mm.
- Extended platform height: 2550mm.
- Max extended working height: 4500mm.
- Max length: 2410mm.
- Weight: 41.8kg.
- Max load: 150kg.
- Certified to BS EN 131 Professional.
