MOBILE FOLDING WORK PLATFORM

With its three different platform heights, central brake system and guardrail, this is the safe efficient choice for working at height.

- Swing-up steps with treads 200 mm deep for comfortable and safe ascent.
- Can be moved very quickly and easily, thanks to four swivel castors on the access section and two fixed castors on the support section.
- Can pass through doors - even when erected.
- 1m high double-sided handrail on the access steps and platform guardrail for maximum work safety.
- Folding frame and pivotable steps mean space saving transport and storage.
- Base area inc steps L x W: 2.17 x 0.75m.
- Folded dimensions: 1.93m x 0.75 x 0.75.
- Adjustable platform heights: 0.42 / 0.72 / 0.99m.
- Platform W x L: 600 x 1800mm.
- Max capacity load: 216kg.
