Stainless - for easy cleaning!

STAINLESS STEEL STACKERS

HAND HYDRAULIC STAINLESS STEEL STACKER

Optimum hygiene with the stainless steel stacker. The risk of bacterial contamination is minimised. The stainless steel products are developed for environments where severe hygiene is needed on the surfaces that are in direct contact with the goods being handled eg meat, fish or medicine.

- Central location of all control buttons on the handle.
- Transparent and impact resistant safety screen on the mast.
- Location of parking brake.
- Closed forks mean easy cleaning and few hiding places for bacteria.

SEMI ELECTRIC STAINLESS STEEL STACKER

The semi electric version gives electric lift operation and easy to move push/pull movement control. Designed for severe hygiene areas where bacterial control needs to be minimised. The design focuses on the safety and ergonomic working conditions of the user. As an example, the ergonomically correct handle ensures the user a relaxed hold.

- Central location of all control buttons on the handle.
- Transparent and impact resistant safety screen on the mast.
- Location of parking brake.

FULLY POWERED STAINLESS STEEL STACKER

- Fully powered stainless stacker - capacities 1200kg + 1500kg.
- Lift heights: 1700mm, 2400mm, and 3200mm.
- Ideal for wet, aggressive and clean environments in the food and pharmaceutical industries.
- Lifts, transports and stacks pallets in very confined areas and optimises space utilisation.
- Long operating life and low maintenance costs through, Ingress protection - IP54 strong and solid construction and steel type EN1.4301.
- 3 phase A.C. drive motor.
- Optional extras: full free lift, straddle leg version, larger capacities up to 3500kg.

Our expert says

Gives you 3.5 times the lifting capacity of standard stackers
