

## MANUAL HYDRAULIC STACKER

- Steel profile construction.
- An economical lift to handle tasks from transporting dies and molds skids and pallets.
- Sturdy and compact enough to fit through standard doors and to operate in congested areas.
- Precision engineered for smooth performance and exceptional durability.
- Lifting function operated by foot and hand controls.
- Allow the operator to work without having to perform extreme body movements.
- ST101Y has adjustable width forks, ST102Y has fixed width wrapover forks.

## MANUAL HYDRAULIC STRADDLE STACKER

An economical hand hydraulically operated stacker suitable to handle pallets that need to be straddled when moving and lifting them (the blue 'Chep' pallets are typical). There are two height sizes to choose from.

- Capacity - 1000Kg.
- Pump handle operation.
- Steel profile construction.
- Polyurethane steer wheels for hardwearing use and ease of movement.
- Very manoeuvrable and easy to operate in tight areas.
