## ECONOMY ONE PERSON ACCESS PLATFORM

Improve workplace safety and efficiency with this secure, single person platform ideal for emergency or unscheduled high level maintenance and repair tasks. The platform features an inward opening, self closing, auto locking gate that prevents accidental opening when the platform is raised, ensuring maximum operator safety. Compatible with forklift forks up to 160mm x 60mm and this unit offers a stable, secure fit using full length fork pockets and a reliable heel locking system.

- Anti-slip flooring.
- Perforated back mesh.
- Fitted with kick rails, harness anchorage points and inboard hand holds.
- Front gate personnel access.
- Max persons: one.
- Platform size L x W x H: 1000 x 1000 x 1860mm.
- Max fork size: 160 x 160mm.
- Fork spread: 790mm.
- Capacity: 300kg.

## TWO PERSON ACCESS PLATFORM

A safe and efficient platform for up to two workers needing to work at height. Secure attachment with full length fork pockets and heel locking system ensure stable forklift connection.

- Safe entry. Step through rails or auto locking side gate provide a protective barrier for 1 or 2 person access during emergency tasks.
- Operator safety. Harness anchorage points and inboard handholds for secure operation.
- Anti-slip flooring. Tread with drain holes prevents water accumulation and slipping risks.
- Protective design. Perforated back mesh and kick rails prevent exposure to hazards and falling tools.
- High visibility. The bright yellow finish enhances visibility during forklift operations.
- Max persons: 2.
- Max fork size: 160 x 60mm.
- Capacity: 500kg.

REF	Means of entry	Platform size L x W x H mm	Fork spread mm	PRICE
ACTSTD	Step through bars	1000 x 900 x 1860	940	£814.00
ACTPGATED	Side gate	1220 x 1000 x 1860	790	£1124.80
