

## RECYCLED PLASTIC PALLETS

An extensive range of plastic pallets manufactured from entirely recycled materials - polypropylene/HDPE. They are designed specifically for storage, transport or export of products. All the pallets are strong, light, clean and safe. We offer a range of popular sizes with a selection of designs offering nesting styles for space saving and a choice of loading capacities.

- Economical due to their durability.
- No water absorption so very light.
- Can be exported without treatment.
- Safe in use - no nails or screws.
- Good chemical resistance.
- Can be stored outside.
- Minimum order quantities apply, see pricing box.
