CHAIN SLINGS

Made from KupleX grade 8 alloy chain. Slings conform to BSEN818-4. The heat treated chain gives superior resistance to wear and fatigue. Chains fully assembled with master ring and either a safety hook or a 'C' ring. An optional shortening clutch can be fitted to any chain leg if required.

- Test certificate supplied.
- Working load limits (WLL) are for use of sling between 0 - 45° angle.
- Price based on 2 metre effective working length. Add extra per metre lengths to increase to length required.
- Specials and a variety of different fittings can be supplied.
