

THE CLASSIC ACCESS TOWER

The Classic scaffold tower range is the ultimate high quality versatile steel scaffold tower system. Classic scaffold towers can be used with confidence for most light duty tasks, a multitude of domestic maintenance applications and are extremely useful in the garden for hedge cutting/tree trimming.

- All Classic scaffold towers are now supplied with double handrails, trapdoor platform, internal ladders, stabilisers (except #) and toe boards for improved safety.
- Available in three useful base sizes - 1.2m x 0.76m, 1.2m x 1.2m & 1.8m x 1.2m - Classic Towers can solve almost any access problem.
- Manufactured from prime quality pre-galvanised mild steel tube the superior finish provides excellent resistance to corrosion which keeps the product looking good for many years.

HEAVY DUTY ACCESS TOWER

Minor heavy duty scaffold towers are probably one of the strongest and safest steel scaffold towers available today. They are made to the highest possible standards, constructed from 2.0mm (horizontals) and 2.5mm (verticals) thick, prime quality British steel to BS 6323 34/26 and then hot dip galvanised to BS EN ISO 1461:1999 both inside and outside the tube to provide a corrosion free life. All Minor scaffold towers are now supplied with double handrails, trapdoor platform, internal ladders, stabilisers (except #) and toe boards for improved safety. Minor heavy duty scaffold towers are available in two useful base sizes - 1.2m x 0.61m or 1.2m x 1.2m.
