MODULAR LOADING DOCKS

The absence of a raised loading dock can be a threat to safety and also uneconomic. This can be remedied with our versatile modular system which can be designed to suit individual locations and requirements.

- Its semi-permanent nature allows quick simple relocation or change of layout.
- Rugged construction for up to eight tons axle load.
- Minimum disruption during installation.
- Smart streamline appearance.
- Complies with Health and Safety Regulations.
- A wide range of accessories are available.
- Dock is a valuable asset to the company.
- Contact us now for a free survey and quotation.
- We offer a full supply, delivery and installation service.
- Platforms can be provided in heights ranging from 800 to 1,600mm.

REF	Description	L x W x H m	Weight Kg	PRICE
TMD-SM	Standard Module	3.57x2.38x1.0	1110	POA
TMD-DL	Dock Leveller Module	3.57x2.38x1.0	600	POA
TMD-FTR	Fork Truck Rave	0.3 high	24/m	POA
TMD-PTR	Pallet Truck Rave	0.04 high	5/m	POA
TMD-HR	Hand Rail	1.00 high	19/m	POA

TMD-CL	Cat Ladder	0.81 wide	66	POA

SAFETY TRAFFIC LIGHT SYSTEM

- Enables driver to observe correct reversed position at dock.
- Helps to eliminate damage and improves safety.
- Add on optional proximity switch which produces a beam. When vehicle breaks beam, lights change to indicate correct reversal position, easily visible from cab.
- Wiring not supplied, complete wiring diagram included.

REF	Model	Wt Kg	PRICE
TDL-1-N/S	Standard	2	£63.34
TDL-2-N/S	De-luxe	1	£174.53
TDL-5	Optional sensor		£277.94

LAMINATED DOCK BUMPERS

A recent addition to the Action range to give an alternative, very hardwearing protection to the edge of the loading dock. Basically a sandwich of rubber strips mounted in an angle frame providing a facility for a larger range of dock bumper sizes.

REF	Type	WxLxT mm	No of holes	Wt Kg	PRICE
