

SELF TIPPING SKIPS

Will handle almost any bulk materials: The first 4 models suitable for medium duty applications such as waste paper, timber cut-offs & general warehouse waste. The next 3 models are suitable for heavy duty applications, steel cut-offs, granule product and building waste. The last 3 models have automatic discharge so that operator does not have to leave the forklift to empty the load.

- Polyester powder coated in bright orange for safety.
- 300mm fully sealed sump to prevent spillages.
- Fork heel locking pins for safe attachment to truck - zinc plated.
- Fully tested with certificate.
- Operating mechanism protection.
- Secondary locking mechanism on body.
- Fits fork size 150x60mm with a fork spread of 848mm (except IWS-0 which is 548mm).
- Optional extras: Special sizes, castor bases, 3 way entry, lifting lugs and special finishes.

REF	Capacity cu. metre	Body thickness	Chassis thickness	Size L x W x H mm	PRICE
IWS-0	0.65	3mm	5/6mm	1635 x 790 x 865	£535.74
IWS-1	0.9	3mm	5/6mm	1752 x 1040 x 945	£567.06
IWS-2	1.2	3mm	5/8mm	1752 x 1285 x 945	£628.14
IWS-3	1.5	3mm	5/8mm	2040 x 1290 x 1095	£661.04
IIS-2	1.2	5mm	8/10mm	1752 x 1285 x 945	£673.58
IIS-3	1.5	5mm	8/10mm	2040 x 1290 x 1095	£737.79
IIS-4	1.8	5mm	8/10mm	2040 x 1540 x 1095	£844.30

AUTOMATIC ROLL FORWARD SKIPS

The Automatic Roll Forward Skip has been designed to eliminate the need for the operator to leave the truck when discharging the load thus reducing time and optimising safer working practices.

Standard features:

- Fully automated discharge plus relatch.
- Operating mechanism protection.
- Manual override.
- Polyester powder coated in bright orange for safety.
- 300mm fully sealed sump to prevent spillages.
- Four way entry base.
- Zinc plated fork heel pins for safe attachment to truck.
- Fully tested with certificate.
- Reinforced loading edge and body sides.

Optional extras:

- Castors.
- Hinged lid.
- Colour finish.
- Automatic heel pins.

REF	Nominal Cap (m³)	Body Material (mm)	Chassis Material (mm)	Max Fork Size mm	Length mm	Width mm	Height mm	PRICE
IARS-1	0.70	2	5/6	150 x 60	1515	960	1125	£695.50
IARS-2	1.10	3	8/10	150 x 60	1930	1060	1285	£761.29
IARS-3	1.40	3	8/10	150 x 60	1930	1300	1285	£834.92

AUTOMATIC LOW LEVEL SKIPS

The Low Level Skip is an ideal alternative when height is at a premium. The skip can be easily positioned under an automatic punch, lathe or cutting machine where blanks, swarf and natural waste is produced. The skip has a unique automatic tipping mechanism.

Standard features:

- Polyester powder coated in bright orange for safety.
- 100% sump sealed to prevent spillages.
- Zinc plated fork heel pins for safe attachment to truck.
- Operation mechanism protected complete with secondary locking mechanism.
- Manual override.
- Reinforced loading edge and body sides.
- Fully automated discharge plus relatch.
- Four way entry base.

Optional extras:

- Castors.
- Colour finish.
