

MORTAR TUBS

This range was originally designed for moving mortar safely and securely around building and construction sites. However the tubs can also be used for a multitude of tasks, across a variety of industries. Made from high density virgin polymer, our tubs are strong and robust to cope with the toughest of jobs. All tubs are tested and certified for capacity and weight.

- Easy to clean and wash down.
- Fork guides and channels for use with pallet trucks and fork lift trucks for ease of moving.
- Choice of capacity: 250-300 litres.

Our expert says

Robust construction can be fork lifted

REF	Capacity ltrs	O/S L x W x H mm	Description	PRICE
