Fast, easy assemble in a matter of minutes!

BOLT FREE ECONOMY SHELVING

BOLT FREE ECONOMY 'K' SHELVING

The Bolt Free 'K' Range provides unbeatable value yet incredible strength at an amazing price. There are no nuts, bolts or screws needed in order to build a bay of shelving using just a small hammer in a matter of minutes!

- Galvanised beams to provide a hard wearing finish.
- Attractive powder coated blue uprights.
- Each bay comes complete with 5 chipboard shelf panels.
- Heavy duty shelf capacity 200-300kg UDL.
- Suitable for industrial, workshop, warehouse and retail use.
- The beams are 54mm deep and can be adjusted in height at 100mm increments. This means that your shelving can be highly flexible and versatile.
- Bay height 2000mm with a large choice of width and depths available. For 2500mm high bays add extra price from table to standard price.
