## PALLET RACKING DECKING

A choice of three types of decking suitable for fitting on the beam levels of pallet racking. High quality timber and mesh steel construction. The open and closed timber decking is 25mm high and suitable for 50mm beam depths.

- Load capacities: 1000 - 1500kg per deck.

OPEN TIMBER DECKS			
REF	Size W x D mm	Load per deck kg	PRICE
OBTD1091X1095X25	1091 x 1095	1000	£24.84
OBTD1337X1095X25	1337 x 1095	1500	£31.77

CLOSED TIMBER DECKS			
REF	Size W x D mm	Load per deck kg	PRICE
CBTD1337X895X25	1337 x 895	1000	£26.45
CBTD1090X1100X25	1090 x 1095	1000	£35.30
CBTD1337X1095X25	1337 x 1095	1500	£42.92
CBTD1637X1095X25	1637 x 1095	1500	£70.59

MESH DECKS			
REF	Size W x D mm	Load per deck kg	PRICE
MESH1320X904X3	1320 x 904	1000	£24.99
MESH1080X1104X4	1050 x 1104	1000	£28.28
MESH1118X1104X4	1118 x 1104	1000	£28.59
MESH1320X1104X5	1320 x 1104	1500	£34.07

### Purchasing a new pallet racking or shelving system, relocating or moving an existing one?

Install in accordance with the manufacturer's guidelines by a competent SEIRS installer.

Qualified installation teams should be appointed to carry out any work on your behalf to certify the installation to SEMA standards.

We can provide SEIRS registered installation teams for relocation, removal and reconfiguration of your pallet racking.

### It is important to have racking and shelving inspections annually to comply with PUWER

Comply with the Health and Safety at Work Act 1974 and Provision and Use of Work Equipment Regs 1998 - PUWER.

Identify wear and tear, damage and weaknesses before they cause accidents or loss of life.

We can carry out professional inspections annually or as a one-off to help you ensure a culture of safety in the workplace.
