## ENHANCED COLOUR RANGE OF CLOTHES LOCKERS

We have come to notice that many organisations wish to make their environment as attractive as possible for employees, students and visitors alike. Increasingly we are asked for more progressive colours and colour combinations. As a result we would like to introduce our Enhanced Colour Range. Manufactured to the same high quality and durability as the Standard Range but with a colour twist.

- Frame constructed from 1.5mm steel which ensures great strength and security.
- Lateral security beam enhances the security of the locker.
- Hinges are 75mm deep. This again offers greater quality and durability.
- Ideal for schools, universities, public authorities, where long lasting durability is required.
- White carcass with a wide choice of exciting colours.
- Minimum order quantity of 8 lockers.

**Our expert says**

Enhance workspace with bright coloured lockers
