

## POWERED PLATFORM TRUCKS

These powered platform trucks are designed to move heavy goods in varied environments whilst being extremely manoeuvrable in tight places. They are available with a fixed, single steel end that supports the power controller, with the option of being fitted with additional 2, 3 or 4 sides, in either mesh infill or sheet timber.

- Capacity: 600kg.
- Forward and reverse operation.
- Adjustable speed and emergency stop.
- Available in two platform sizes: 1000 x 700mm or 1200 x 800mm.
- Timber or zinc plated mesh infill sides.
- 6 full hours charge (2.5-6 miles range depending on load).
- Available in blue or grey.
