

## LIGHT ASSEMBLY WORKBENCHES

These ergonomic workbenches are suitable for light assembly. The modular construction allows many possibilities when planning a layout.

- Height adjustment with allen key between 650-900mm. Frames are of epoxy powder coated steel in grey RAL 7045.
- The worktops are of 25mm laminated particle board.
- As well as the basic bench there are 3 other bench options that can be used to construct a modular layout: add-on line extension benches, right angled extensions and corner bench units (only attach to right angled extension benches).
- Capacity 300Kg UDL for TP710-TP918 and 150Kg UDL for all other benches.

Two basic benches with a corner section
