

DRUM STORAGE UNITS

- Designed to help compliance with environmental pollution regulations.
- Controls accidental spillage. Sump holds over 25% of total liquid stored.
- Mild steel construction with galvanised grid mesh shelf and floor panels.
- Oil tight welds and sump drain plugs.
- Ideal for storage of paints, oils, solvents, detergents, etc, but not acids.

For the storage of up to 36 x 210 litre drums.
There are three standard units:

FULL SECURITY UNIT —

Illustrated left. Totally enclosed with sliding lockable doors with hasp fitted for padlock.

OPEN FRONT UNIT —

Illustrated below. Enclosed back, sides and roof.

OPEN UNIT —

Not illustrated. Open front and back. Fitted with sides and roof. Allows loading and unloading from both sides.

Special units to customer specification can be supplied.
