

Our expert says

Reduces damage & injury

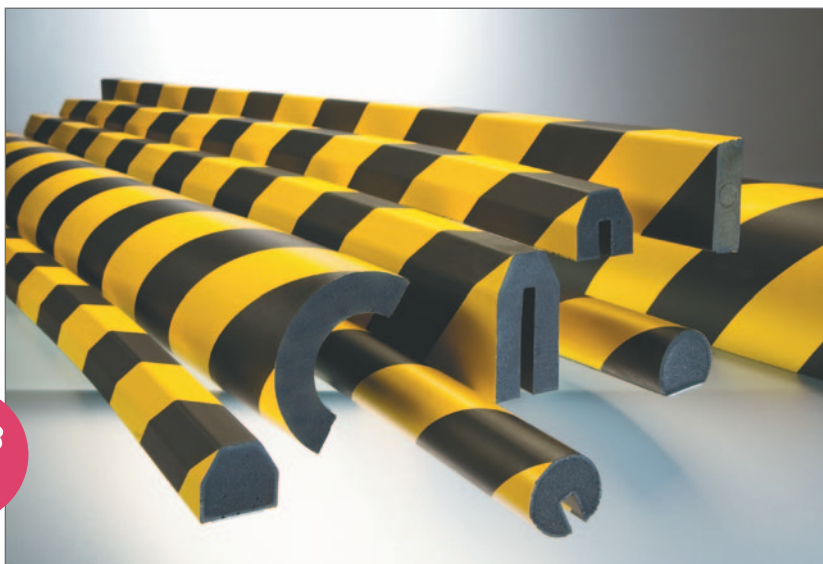

IMPACT PROTECTION PROFILES

Impact Protection Profiles provide both visual warning and safety cushioning to hard unyielding objects.

- Prevents injury and protects property.
- Quick and easy to install.
- High quality moulded sections.
- Standard length is 1000mm.
- Easily cut to length with sharp knife or fine saw blade.
- Made from flexible age resistant polyurethane foam.
- UV resistant yellow/black colours according to DIN 4844.
- Temperature resistant from -40°C to +90°C.
- Fire resistant.
- CFC and silicon free.

Applications:

Internal and external machinery, racking, conveyors, vehicles, mobile trolleys, corners, columns, girders, production areas, transfer routes, hospitals, laboratories etc.
