## SAFETY TRAFFIC LIGHT SYSTEM

- Enables driver to observe correct reversed position at dock.
- Helps to eliminate damage and improves safety.
- Add on optional proximity switch which produces a beam. When vehicle breaks beam, lights change to indicate correct reversal position, easily visible from cab.

Standard

De-luxe

REF	Model	Wt kg	PRICE
TDL-1-N/S	Standard	2	£106.00
TDL-2-N/S	De-luxe	1	£981.88

## ULTRA BRIGHT LED DOCK LIGHTS

- LED technology meaning low energy consumption and a long lifespan.
- With 24 LEDs per array, these traffic lights are approximately equivalent in brightness to a 60w incandescent lamp but offer significant energy savings.
- Compact, easy to install design.
- A regulated power supply with a maximum voltage of 24.5v DC is required. We recommend our power supply is used to ensure correct voltages.
- Supplied with 4m of cable for electrical installation.
- 100mm diameter LED array.
- Features durable polycarbonate casing.
