MESH SECURITY CAGES

A galvanised mesh cage designed for storing gas cylinders but equally suitable to store other hazardous products and general items of equipment that require a degree of security.

- Robust construction in 25mm box sections with 3mm wire mesh panels.
- Modular bolt together design.
- Suitable for site use or factory/warehouse.
- Easy to erect or flat pack to move.
- Comes complete with fixings and hazard warning signage.
- Padlock point for security.
- Can be fixed to the ground.
