

PREMIER DOUBLE SKIN PARTITIONING

Premier is an integrated double skin steel partition system where a smooth internal and external finish, with minimal joints, is required. The system is suitable for a wide range of applications including security areas, offices, storage areas, factory dividing walls and locations in food or chemical production areas. Premier is also available in various vertical configurations - all solid, solid/glass or solid/glass/solid.

- Robust and durable.
- Quick and easy construction.
- Smooth, flush, single line joint.
- Demountable and relocatable.
- Standard and non-standard width and height options.
- Ceiling solutions.
- Manufactured from Zintec Steel.
- Powder coated.

Panels are constructed using a 1.0mm internal channel faced with 0.7mm (21g) Zintec steel sheets with a 50mm high density Rockwool slab infill. Panels are connected to each other by means of an internal section making the installation very quick and simple. The internal panel connection offers additional rigidity and a wire way facility.

- **Standard Panel Sizes:**
Height: 2440mm, 2745mm, 3050mm.
Width: 950mm, 500mm & 300mm.
Dado height: 1100mm.
Panel thickness: 50mm.
- **Glass:**
Glass retained with steel glazing bead and glazing foam.
6.4mm laminate as standard.
- **Panel Core:**
High density mineral fibre core RW45 rigid slab as standard.
- **Mullion Posts:**
for 2 way, 3 way and corner junctions:
50 x 50mm RHS or 100 x 50mm.
- **High Performance Door Sets**
Single door: 2075mm high x 900mm wide
- plus over panel.
Double door: 2075mm high x 1800mm wide
- plus over panel.
- 9 point security locking, master key.
4 spare keys and shoot bolts to double doors.
Sliding doors and automatically operated doors also available.

Factory fitted flush sockets

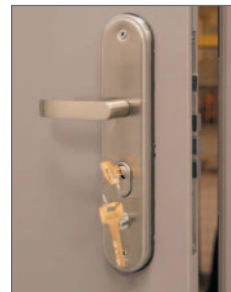

Double doors

- **Paint Finish:**
All panels, doors and components are electrostatically powder coated under quality controlled conditions.
