

STACKABLE PALLET CAGES

FOR LIGHTER APPLICATIONS

FOLDED UNITS – STACKED

HEAVY DUTY – AUTOMATIC LATCH

Constructed to withstand constant use. Easy to assemble and fold for storage. Location spigots for safe stacking. Most suitable for retailing, shipping, transporting and merchandising. All models provided with a half drop gate on one long side, except Ref. 15.739 which has a half opening gate on one long side.

Patented semi-auto latch for simple assembly. Electroplated finish. Extra reinforced models on request. Stack up to 4 high.

REF	Overall size mm (nominal)	Type	Int. ht mm	Folded ht mm	Gate aperture mm	Weight each Kg	Cap Kg	PRICE

STACKABLE RETENTION UNITS

With the introduction of a retention unit a wooden pallet is transformed into a stackable container. Ideal for visual storage in racking with access via half drop gate. Also to retain the load in transit. Many uses in most trades including retailing, shipping, transport and merchandising. Suitable to stack four units high. Constructed from 60 x 105mm mesh and bright electro zinc plated. Cleats are normally fitted on 1200mm side but can be changed to 800/1000 side for small extra charge.

Also available non stacking retention units type RU11/MP. Size to suit 1000x1200mm pallets. With the internal height of 1000mm.

REF	To suit pallet size mm	Internal ht mm	Overall ht mm	Gate aperture mm	Weight each Kg	Folded dimensions (20 units) mm	Capacity Kg	PRICE
16/106	800x 1200	850	1000	890x410	30	910x2050x65	800	£76.55
