

PRESSWOOD PALLETS

Unique range of pallets manufactured whole from a mix of wood fibre and synthetic resin under controlled conditions involving very high temperature and pressure.

- Each pallet nests into the next saving valuable storage space - half of traditional timber pallets.
- Suitable for export.
- Environmentally friendly and recyclable.
- Low moisture content reduces tare weight.
- Safer as they have no nails or screws and neither do they splinter.
- Ideal for shrink or stretch wrapping.
- Consistent size and weight ensures easy load weighing.

Capacities listed are dynamic (static capacities equal four times dynamic) loads should be evenly spread and restrained.
