

## PALLET-PAL

- Pallet-Pal allows the operator to load and unload pallets easier, faster and far safer.
- No electrics, hydraulics or pneumatics. This sprung table needs no tools to change the table to handle loads from 200-2000Kg.
- Pallet-Pal maintains a level loading height automatically to prevent operator having to bend, stretch or walk unnecessarily.
- Loading and unloading time reduced by 40% and effort reduced by 75%.
- Maintenance free.
- Top turntable rotates load to operator.
- Free standing, portable, fork guides fitted.
- Closed height - 235mm, open height - 700mm.
- Weight: 135kg.

REF PP2000 PRICE £1855.00
