

## MANUAL HIGH LIFT PALLET TRUCK

- Operation: Extremely easy to pump and use makes this unit very suitable as combined hand pallet truck and lift table.
- Quick-lift as standard with automatic transfer to normal lifting with loads over 150Kg.
- Automatic descending speed control by a uniquely hydraulic valve, the descending speed always keeps the same regardless of the truck with or without load. It will prevent cargo damage from fast descending.
- Front support legs and adjustable stabilizers extended to the floor automatically when the forks reach a height of 420mm, to ensure maximum stability and optimum braking.

- Conforms to EN1757-4.
- Choice of 1000Kg or 1500Kg capacity.
- Choice of fork sizes.

## HEAVY DUTY HIGH LIFT PALLET TRUCK

Our premium quality range of high-lift pallet trucks features innovative design features. The conventional 'A' frame design is replaced with the patented 'Giraffe' neck which allows all round access to the load. The GX range is ergonomically designed and built to the highest standards for the rigours of all day use. This truck is able to work in the same manner as a pallet truck but allows the load to be lifted to 800mm for comfortable loading and unloading of the pallet without constant bending.

- Capacity 1000 or 1200Kg.
- Lift height 800mm.
- Fork widths 520 & 685mm.
- Fork length 1200mm.
- Alternative lengths and widths made quickly to order.
- Electric model noise level below 60 decibels.
- CE approved.
- Polyurethane wheels.
- Solid steel scissor legs.
- Available in manual or electric lift.
- Innovative 'Giraffe' design allows easy access to load from all sides.
- Electric model lifts to full height in 7/12 seconds laden/unladen.
