

flexible gravity expandaveyor

A truly flexible friend. It is easy and fast to set up. Just wheel it to the area required and it will allow staff to load or unload vehicles or move products from one point to another. Speed, safety and economy of effort are all achieved.

Constructed from bright zinc plated lattice sides and leg supports that are mounted on 100mm dia fully braked swivel castors.

Low inertia skatewheels offer the advantage of keeping product moving even around corners and bends. Unit closes up to a third of its size when stored.

- Unit comes complete with legs - choose your height range and between skatewheels or plastic rollers.

HOW TO ORDER - CHOOSE OPTIONS

EXAMPLE: PW/PR - 600 - 6.0 - L2

PW - PLASTIC WHEEL L2 - HEIGHT
 PR - PLASTIC ROLLER CH - CONNECTING HOOKS
 600 - WIDTH mm ES - END STOP
